

ABOUT CAMP K

Nestled among the spruce forests along Kenai Lake in Cooper Landing, Camp K provides the perfect environment for youth to explore the natural world around them, engage in challenging activities and form friendships that can last a lifetime. With the supportive guidance of camp counselors, campers build their own unique community in which each member can experience a sense of belonging, connectedness, safety, acceptance and appreciation.

Peninsula Puffers

Peninsula Puffers was created by a team of dedicated Alaskan health care providers in partnership with AAFA AK and Central Peninsula Hospital. Dr. Jody Butto along with Dr. Teresa Neeno, Dr. Kathy Case and Liz Collins RT wanted to provide children living with asthma and food allergies with a fun, safe and educational summer experience. Peninsula Puffers is the result of their dedication to helping campers learn how to manage their conditions while Living a Life Without Limits.

In the past 8 years, the program has grown thanks to camperships donated by a variety of Alaskan medical clinics .
